Thomas Blackburn is a noted technologist, product developer, consultant, patent analyst, educator, and expert witness specializing in mobile, cellular, Blue-Tooth wireless technologies, GPS technologies, wired technologies, networks, phones, standards, location-based-services, hardware electrical designs, battery design & analysis and systems. Mr. Blackburn has over thirty years of experience in the field of electrical, industrial, RF and telecommunications engineering. He has worked for private organizations and has been a founder of several successful start-up telecommunications companies. Mr. Blackburn holds over 35 US and International Patents in the telecommunications field.

Since 1996, his professional activities and services have focused exclusively on mobile, cellular, Blue-Tooth wireless technologies, GPS, A-GPS, wireless and wired technologies, forensics, electronic discovery, markets, standards, spectrum, regulations, damages, networks, hardware electrical designs, battery design & analysis and services. He has taught seminars on mobile, cellular and fixed wireless technologies. He has served as a plaintiff and defendant expert witness on a wide spectrum of civil, criminal and business matters/litigation involving wired and wireless technologies, electronic discovery, cable damages & repair costs, communications products and services.

As a patent analyst, he has assisted many leading law firms in defending against or asserting claims of patent infringement and patent validity, including IPR's. This patent work has encompassed Wi-Fi/WLAN standards, Bluetooth standards, DSL standards, all generations of standards for GSM, UMTS, LTE, and CDMA2000 cellular standards, including GSM/3GPP, ETSI, OMA, WAP, CT-2 / DECT / COMS. This patent work also included electrical designs including battery designs, equipment for reading barcodes and other labels, smart-meter designs with battery backup.

He has written many expert reports for non-infringement, infringement, invalidity and validity. Over 25 Declarations and Affidavit's. He has given over 20 depositions and has testifying experience. He has assisted with post grant reviews including IPR's to opine on the validity of patents. He has performed due diligence on patents in the early stages of infringement. He has testified at deposition or at a jury trial over 15 times.

As a cellular forensic analyst, he has worked closely with private attorneys and Public Defenders in analyzing call detail records and has opined on cell phone location after performing cell site and CDR analysis. He has testified at deposition or at a jury trial 25 times.

As an electronic discovery expert, he has worked closely with private attorneys in determining the transmission and receipt of critical documents such as DMCA notices, contracts, agreements, and other legal documents using email, FAX, and other transmissions media.

As a hardware electrical designer, he analyzed failed electrical systems to determine causes.

Mr. Blackburn's expertise in cellular, mobile, GPS, wired and wireless communications encompasses the following areas:

Computer, Cellular/Mobile, GPS and Wireless Technologies

- 2G, 3G & 4G mobile networks
- Location based services – GPS, A-GPS, Wi-Fi, Triangulation services
- SMS/MMS Standards & Protocols
- Cordless Telephone Standards
- Cell phone design
- Qi Design & Analysis
- Auto-dialer design
- GPS designs
- GPS devices – data analysis & tracking
- Cellular phones, Handsets, Smartphones & PDA's including operating systems, SMS Messaging, MMS, WAP, Web Browsers, filters and access control
- Headphone review & analysis
- Earbud/earphone analysis
- Mobile & Wireless VoIP
- Interstate & International Calling Standards – Billing, Access Charges
- Bluetooth devices
- Fax transmissions- Copyright DMCA notices
- Wired technologies – DSL, ADSL2+, VDSL
- Power & charger adaptors / smart universal power adaptors / smart tips / Mophie
- E-cigarette design, failure analysis, battery explosion
- Determine cause of failure of hardware electrical systems and devices.
- Microprocessor design & implementations
- Multiple Access Technologies - CDMA, TDMA, FDMA, DSSS
- Network Standards
 - GSM, GPRS & EDGE
 - HSDPA, HSUPA, HSPA+
 - iDEN
 - IS-95, CDMA2000, EV-DO
 - IS-54, IS-136
 - CT-2 / DECT / COMS Standards for Cordless Telephones
 - LTE (Long Term Evolution)
 - WCDMA/UMTS
 - Wi-Fi
 - DSL

Patent Infringement for Wired & Wireless Technologies

- Due diligence on patent claims
- Patent infringement/non-infringement analysis
- IPR Cases
- Patent validity/invalidity analysis & prior art search and opinions
- Claim charts & proof packages
- Technology evolutions
- Expert reports
- Testify

Work History

GTE (General Telephone & Electronics) *Advanced Development Group* 1972 – 1985

State of the art telephony designs, outside plant, coin & pay phone designs – over 25 US & International Patents

International telephone standards, designs

Go Digital Telecommunications – Engineering Director / Founder 1996 – 2006

State of the art telephony designs – 3 US Patents

Consultant / Expert Witness (05/1985 – Present)

Expert witness & testify, Intellectual Property support services including reverse engineering of hardware & software, copyright & patent claims analysis, research, prior art searches. Cellular systems, GPS, Location Bases Systems, telephone designs, copper cable systems / design, fiber optic systems, Internet Access systems DSP systems, FPGA architectures.

Electronic Product Design and development including audio/video system design, digital & analog design, microcontroller development, battery designs and backup systems, power supply design, e-cigarette failure analysis, Qi design, controller design, earbud analysis.

Consulting Clients:

Hawg Wired Inc. 1997 – 2010

Provided consulting services for Audio System design for motorcycle systems

Echelon Inc. 2005 - 2009

Provided consulting services for Electricity Smart Meter, Lighting fixture & iLON Internet Server, power supply testing, NEBS Level 4 testing. Power supply design w/ power management. Cellular designs.

E/O Networks 1988 - 1990

Provided consulting services regarding VoIP, FTTH (Fiber-to-the-Home) specifications and design. Network Management design. – Patent & copyright reviews.

Raychem 1989 - 1996

Provided consulting services regarding DSL /HDSL systems design. Cable specification & design

Raynet 1988 - 1992

Provided consulting services regarding FTTH (Fiber-to-the-Home) specifications and design. Network Management design – copyright of CD manual for electrical appliances

Able Telecommunications 1987 - 1989

Provided consulting services regarding channel bank & line card design.

International Compliance & Approvals, Inc.

Provided consulting services regarding testing telecommunications systems per UL / Telecordia

Evotech – 1985 - 1995

Provided consulting services regarding systems designs for both commercial & industrial applications. Cell phone designs, navigation devices (GPS), medical devices.

Major expert case areas he has worked on include:

- Patent Infringement / Claim Elements - Review, Comparison & Analysis, prior art & discovery
- Patent Infringement / Validity & Invalidity reports, depositions, testify
- Cell phone call records analysis, tracking analysis, GPS, A-GPS
- Cell phone memory analysis (Smart card, SIM, hard-drive) for deleted messages, video, pictures
- 911 & E911 liability, compliance and regulatory issues, equipment failure and maintenance
- Cell Phone design (hardware & mechanical) – patent infringement
- Cell Phone charging pad – Qi system
- FCC Standards & Regulations – Interstate, International calling
- FCC Tariffs, Access Charges, LATA calls
- Design Standards: 3GPP, ETSI, ITU; Wi-Fi Standards 802.11b/g/n
- Networks including UMTS, GSM, TDMA, CDMA, EV-DO, GPRS, FOMA, wireless IP, etc.
- Services including SMS, EMS, MMS, VoIP, SS7, Wi-Fi, email, instant messaging, etc.
- Protocols including SMS, EMS, MMS, HSDPA, WAP, TCP/IP, UDP, etc.
- 800 MHZ Radio System architecture, design, audits and failure analysis – Repeater systems
- Cisco servers, routers; network switch architectures; packet switch routing
- Consumer product analysis, forensic testing, reverse engineering, BOM review, construction
- analysis – computers, TV Desk Top units, Auto-dialers, wireless devices, Headphones, e-cigarette.
- Determine cost and sales price for products – Insurance claims, thief, ebay
- Power system analysis / high voltage failures / proper grounding analysis
- Battery design, analysis, and backup power switching systems
- Battery failure analysis
- 20W – 50W power supply designs w/ power management, line powered systems
- PC Power Supply (AT, ATX & Brick-laptop), power management, market surveys & analysis
- Consumer product analysis for proper design / construction & assembly per UL
- Cable liability case involving cable installation procedures
- Cable damage cases and cost analysis
- UL safety testing, NEBS, IEC62052/53, IEC60601 (Medical), IEC61000 & RBOC lab testing
- Class Action Lawsuits – earbud analysis
- Electrical failure analysis and causes – water heater, electronic cable assemblies.
- Twisted copper cable design / specification for DSL / ADSL2+ transport, 10/100 Mbit
- Computer / laptop analysis – records monitoring
- FAX, email using IP
- GPS devices – design, data analysis, data recovery
- Location Based Systems
- Laptop design, keypads, battery, battery chargers
- Bluetooth devices
- Audio headphone testing & verification of operation (Boise, ear buds for cell phones).
- DSP & FPGA desktop / plug-in architecture design & reverse engineering
- Fiber Optic system design & failure analysis – network management design
- Multi-channel ADSL systems using DSL (gSHDSL) transport technology

Education

Canadian Patent # 1,132,592	Issued Oct. 12, 1982
Canadian Patent # 1,137,178	Issued Dec. 07, 1982
Canadian Patent # 1,165,409	Issued Apr. 10, 1984
Canadian Patent # 1,190,681	Issued July 16, 1985
Canadian Patent # 2,223,977	Issued Dec. 19, 1996
European Patent #EP0872067	Issued Oct. 21, 1998
Australian Patent # AU6038096	Issued Dec. 30, 1996
South Africa Patent # ZA9604841	Issued Dec. 08, 1997
Argentina Patent # A002206	Issued Jan. 07, 1998

Focus Groups

Nichols Research – PC Power Supplies – Market Analysis & Surveys, Oscilloscopes, Semiconductors, cell phone architectures, microprocessors, routers, patents.

Publications & Presentations (Lectures, Teaching Classes)

IEEE Journal –Articles regarding electronics & telecommunications devices (1975 – 1982) – Co-author with Jim Stewart, Neal Zelmer (GTE Lenkurt Inc.)

Presentations at IEEE & NEC conventions and meetings. Presentations at Public Defenders Office’s

Articles for Quarterly Newsletters – Forensis Group, Consolidated

Professional Associations and Achievements

- IEEE 1972 – 1985- currently not a member
- 1999 “Super Star” award for superior telecommunications design
